vibe

your vibe attracts your tribe.  
the first impression people get  
from your social is everything.  
in a visual age, it's important  
people feel what you are about  
right away.

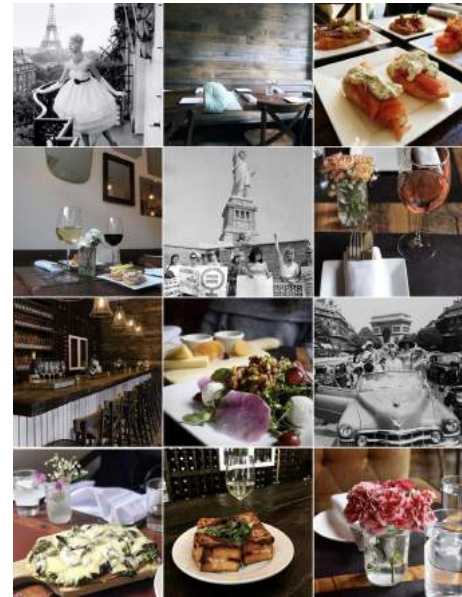

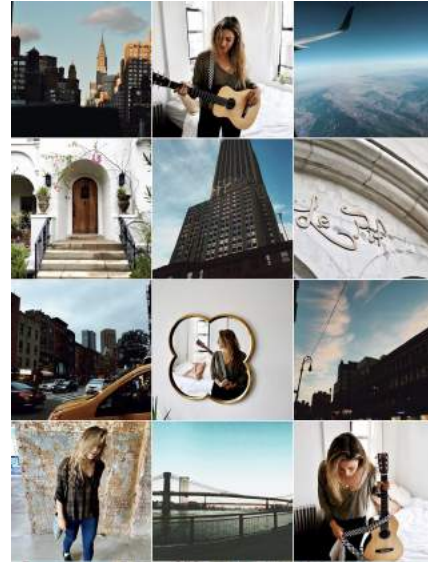

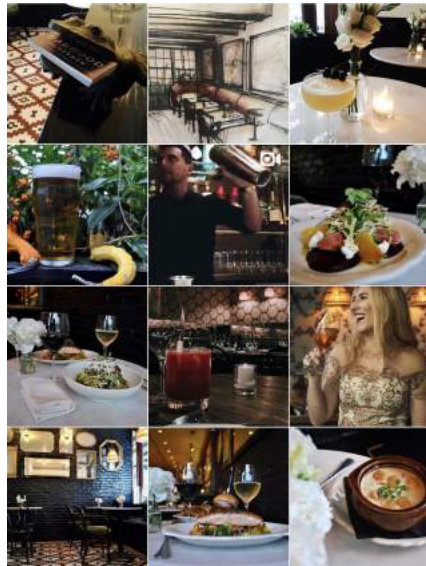

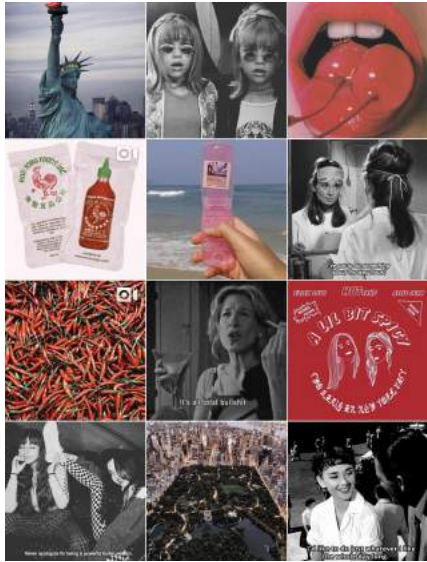

i'm here to develop that feeling  
and keep it consistent. i focus on what  
you want to be, not what everyone else  
is doing because being yourself is the  
strongest attraction.
